

Professor Ian Wong is jointly appointed by the University of Hong Kong and UCL School of Pharmacy in London. In association with UCL School of Pharmacy, UCL Institute of Child Health, Great Ormond Street Children's Hospital and investors, Professor Wong set up Therakind Ltd.

Therakind is a commercial research organisation which works exclusively in paediatric drug research and development. Therakind has developed three licensed paediatric medicines in Europe. Prof Wong will share his experience on the development of off-patent drugs for paediatric medicines.
